# Why choose SAP01?

SAP01 is the fundamental course that lays the foundation for all subsequent SAP training. It provides a structured overview of the SAP environment and builds the necessary foundation for future specialization.

The course provides:

- ✓ understanding the logic and architecture of the system
- ✓ learning basic SAP terminology
- ✓ review of key business processes
- ✓ clarity regarding the interaction between functional areas

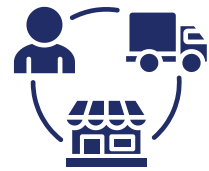

The training provides a comprehensive overview of the role of SAP in managing key business processes – finance, logistics, human resources, and analytics. It is conducted by ASAP – the official SAP partner for Bulgaria and Romania.

# What does the course cover?

SAP01 provides an integrated overview of the main business solutions in the SAP environment and their role in managing organizational processes.

The training covers:

## Customer & Supply Chain

SAP Customer Relationship Management

SAP Supply Chain Management

SAP Supplier Relationship Management

## Product & Operation

SAP Product Lifecycle Management

## Finance & HR

SAP Human Resources

SAP Financials

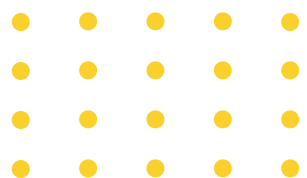

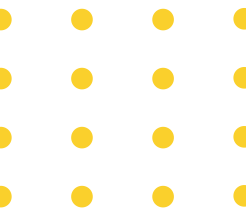

## Analytics & Enterprise

SAP Business Intelligence

SAP Enterprise Portal

SAP Solutions for Small and Midsize Businesses

# Your skills after the course

After successfully completing SAP01, you will:

- ✓ You understand SAP terminology and architecture
- ✓ You navigate confidently in the SAP system
- ✓ You track key business processes – from purchase to sale
- ✓ You work with the system at the end-user level
- ✓ You have a solid foundation for specialization in your chosen module.

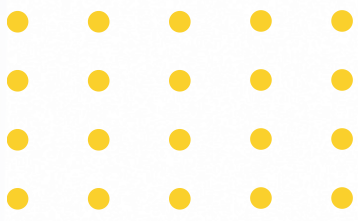

SAP01 gives you a confident start and structured thinking right from the outset.

## Who is it suitable for?

- ✓ Suitable for beginners
- ✓ No previous experience with SAP required
- ✓ Suitable for future SAP consultants
- ✓ Business analysts
- ✓ Financial specialists
- ✓ Logistics and HR specialists

The course is designed for anyone who wants to build a solid foundation and open the door to professional realization in the SAP environment.

# How is the training conducted?

**Duration  
2 days**

SAP01 is conducted in an intensive two-day format that combines structured theory with practical examples from the real SAP environment.

**Online or  
ASAP Training Center**

Training takes place in a virtual classroom or in person at the ASAP training center, providing flexibility, active participation, and direct communication with the instructor.

**SAP lecturer  
and official SAP training program.**

The course is delivered by certified SAP instructors with practical experience and follows the official SAP curriculum.

# The benefits of training at ASAP
